ABOUT US:

Established in 1986, Rockwell Industries is India's leading manufacturer of Commercial Refrigeration Appliances. As an ISO 9001:2015 certified company, we have been at the forefront of innovation, pioneering numerous products, offering a comprehensive range of high-performance, energy-efficient refrigeration solutions that prioritize quality, reliability and environmental responsibility.

Spanning over 5 lakh square feet, Rockwell boasts three state-of-the-art manufacturing facilities in Hyderabad and Lucknow (INDIA), with an annual production capacity exceeding 6.5 lakh units. Supported by a robust R&D team, equipped with a precision-controlled temperature and humidity test lab, Rockwell possesses a unique capability to design, develop and manufacture customized refrigeration solutions tailored to the specific needs of our customers.

Our company operates a NABL accredited laboratory vide TC-12102, ensuring compliance with international standards for testing. Our advanced facilities and expert team enable us to deliver precise and reliable results, reflecting our commitment to quality and excellence in refrigeration and cooling solutions.

CONVERTIBLE GREEN FREEZERS

Rockwell Green Freezers are built for businesses that can't compromise on cooling performance or efficiency. Featuring high density 90 mm PUF insulation and copper cooling coil, they maintain low temperatures for long hours, even during power outages. Engineered to consume up to 53% less power than standard freezers, they deliver consistent, reliable cooling while helping you save on energy costs, making them a smart choice for commercial kitchens, retail and more.

FREEZERS**

2-IN-1 CONVERTIBLE FREEZERS/COOLERS

Rockwell's Convertible Hard Top Freezers are designed for businesses that need versatility, durability and efficiency in one unit. Built to perform in tropical conditions, these robust freezers can easily switch between freezer and cooler modes to match your storage needs. Every unit undergoes a computerised OPTIMO-run test in our labs to ensure consistent & top-tier performance. With adjustable temperature control and an energy-efficient design, they offer reliable preservation while keeping operating costs low, making them a smart choice for restaurants, retail, commercial kitchens etc.

COMMERCIAL ICE MACHINES

Rockwell Commercial Ice Machines keep businesses stocked with the ice, round the clock. Built for high-demand environments in hospitality, food service and healthcare, they produce anywhere from 36 to 1000+ kg of ice per day, depending on the model. Available in multiple configurations they offer a variety of ice types—from crystal-clear cubes & bullet for premium drinks to nugget ice for medical use and flaked ice for food displays and seafood preservation, ensuring you always have the perfect ice for every need.
